Dimensions in mm

Communicative in meetings and seminars, elegant for catering, company restaurants and bistros, robust in recreation areas and break zones or suitable for wheelchairs in the care living sector – *client* offers tailor-made solutions for every purpose. The tables can be easily and safely linked to each other. And a cable box for power and data outlets provides for the appropriate electric cabling for any media equipment.

Design: Dustin A. Tusnovics

Leg connection and fittings for linking devices. Stable fittings for legs as well as lateral and cross linking devices.

Stacking.

All tables can be stacked. Stacking protection will prevent damage to the table top.

Configurations.

client tables can be linked easily and firmly to form various configurations.

Standard model:

Table tops:

Choice of laminate (MFC) or HPL top with seamless, moisture resistant laser edge (ABS edge), veneered with laminated wood edge. Stained wood surfaces. Exception: square table 1400/1400 mm only available with standard laminate (DKS).

Frame:

Either round (Ø 50 mm) metal leg, square (leg A/F 50 mm) metal leg or square solid wood leg in beech or oak (leg A/F 52 mm). High tables with round or square metal leg. Metal surfaces powder-coated, wood surfaces

stained. Leg connection: aluminium die-cast plate with leg connection (screw thread) and fittings for lateral linking and cross linking.

Optional:

Modesty panel sheet steel perforated, powder-coated. Linking device black plastic.

Electric cabling: cable box metal, powder-coated, with flap. Tables with cable box are not stackable.

Perfect Partners.
